## ABOUT ME

Final-year Software Engineering student with hands-on full-stack development experience in Angular and .NET. Proven ability to build responsive UI components, leverage modern AI coding tools, and develop computer vision models. Eager to bring technical problem-solving skills to a dynamic engineering team.

## EDUCATION

2024 - 2026 TARUMT KL
Bachelor of Software Engineering CGPA 3.61

2022-2024 TARUMT KL
Diploma in Information Technology CGPA 3.1517

## Language Fluency

Chinese(Fluent)
English(Intermediate)
Malay(intermediate)
Cantonese(Fluent)

## EXPERIENCE

**FXI SOLUTIONS (6 month)** **2026 Jan - 2026 Jul**

- Developed and optimized responsive frontend components using Angular and TypeScript, integrating seamlessly with backend RESTful APIs built on .NET (C#).
- Designed, built, and maintained core UI features for operational modules, improving data visibility and user interaction efficiency.
- Participated in regular code reviews, API integration alignment, and daily deployments to deliver production-ready code.

**PROFESIONAL HORIZON SDN BHD (3 month)** **2023 Nov - 2024 Jan**

- Performed PC hardware diagnostics, SSD replacement, Windows installation, disk cloning, and PC refurbishment.
- Assisted customers with hardware and software troubleshooting and resolved day-to-day IT support issues.

## SKILLS

- Programming Languages: Java, Dart, Python, C, C#, SQL, JavaScript, PHP, HTML, CSS, TypeScript
- Mobile & Web Frameworks: Angular,Flutter (State Management, Custom Widgets), Android Studio.
- Database Management: MySQL, PostgreSQL, Firebase, Supabase.
- System Design & Documentation: Proficient in UML modeling including Use Case, Class, Architecture, and Activity diagrams for system architecture documentation.
- Quality Assurance (QA): Test case design and implementation; basic automation testing using Katalon Recorder.
- Cloud & Tools: AWS (S3, EC2, Lambda), GitHub (Version Control), Visual Studio Code, Anaconda, Apache NetBeans, Figma.
- Hardware & Support: Hardware diagnostics, component replacement, and technical troubleshooting.
